

the #1 "BIG DADDY" Roth's

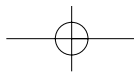

OUTLAW™

Returns!

*How
will you
build yours?*

The FIRST EVER licensed identical reproduction of ANY of Big Daddy's showcars, cast from the ORIGINAL mold has arrived—The Outlaw™ is here!!!!

Master sculptor Jimmy C debuts hand shaped and sculpted fiberglass bodies of the The Outlaw. In 1962 The Outlaw was the first of Big Daddy's showcars to be used by Revel as a model kit—becoming the best seller of it's time!

This car was the first fiberglass bodied show car ever! Built in 1958, it was the first of Ed "Big Daddy" Roth's show cars to gain the title "Americas Wildest Show cars" and has held it's popularity into the new millennium! It was also the first and only show car Big Daddy built using the molding process.

The original mold survived the test of time in the care of Jim "Jake" Jacobs and Robert and Suzanne Williams. Recently, The Outlaw mold was loaned to Jimmy C, for the task of laying up and producing a new mold—the job is complete!

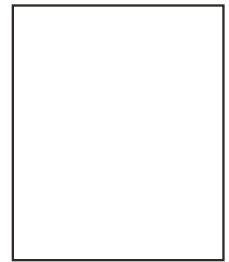

Jimmy C is now offering these beautiful licensed and numbered bodies to you! Drawings and measurements of the original car by Jimmy C are included. Call now and order yours today!
